

UC-321 ProFIT and IntelliSCALE Precision Personal Health Scales

A sleek, stylish scale that offers precise readings and more functionality compared to traditional scales.

A&D Medical ushers in a new line of personal scales to the market. The *LifeSource* Precision Scale is a sleek, stylish unit that offers more precise readings and functionality compared to traditional scales.

This scale provides your weight, accurate to a tenth of a pound. In addition, the scale includes a built-in memory function that records up to 31 readings to track your weight history. With this scale, you can measure your weight loss/gain against a target weight that you set.

In addition, parents can easily measure the weight of their infants. This scale contains a function that subtracts an adult's weight when holding a child.

The *LifeSource* Precision Scale is the ideal choice for those who are looking for a sophisticated, accurate and attractive scale.

- 1/10 lb or 50 g Resolution
- Maximum Capacity 350 lb (150 kg)
- 3 Year Warranty

- Precise measurements
- Sleek, low profile
- Body Mass Index function
- 31 measurement recall memory
- Target weight setting
- Can be used as a baby scale

UC-321 ProFIT and IntelliSCALE

Precision Personal Health Scales

The UC-321 comes in three versions to address the fitness market and the health market. The Precision Personal Health Scale also comes in a metric version for those who need to monitor their weight in kilograms.

UNITED STATES	PART NUMBER	PRODUCT NAME	UPC NUMBER	MEASUREMENT READING
MASS MARKET	UC-321	ProFIT	0-93764-60021-0	lb
HOME HEALTH CARE	UC-321H	IntelliSCALE	0-93764-60022-7	lb
CANADA	UC-321EX	ProFIT	0-93764-60023-4	kg

Precise Measurements

The UC-321 provides ultra precise weight results in your home. Depending on the model, these scales can measure to the tenth of a pound or 50 grams. Even the slightest increase or decrease in weight from an object like a cup of coffee or glass of water registers on this scale. This benefits more than just people who are dieting. The *LifeSource* scale is extremely useful for diabetics and athletes who need to closely monitor and control their body weight within a certain range.

Thin and Light Scale

The UC-321 contains our latest technology in a stylish and low profile body. The UC-321 is one of the thinnest and lightest personal scales you can buy. Measuring less than 1 1/2" thick, this scale is easy to step on and store.

Target weight setting & built-in 31 memory function

This new scale is not just more precise, but is also more functional than conventional scales. With the UC-321, you can set a target weight and it will tell you the difference between your actual and target weights. Additionally, you can store up to 31 readings in memory and recall the stored values to review your weight history.

Body Mass Index Calculation

Body Mass Index (BMI) takes into consideration an adult's weight-to-height ratio to determine if he or she is overweight. With the *LifeSource* personal scale, the BMI value is calculated automatically and shown on the display. Just step on the scale to measure your weight and the UC-321 does the rest.

Technical Specifications

Dimensions	12.3" (l) x 1.4" (w) x 12.6" (h) (312 mm x 36 mm x 320 mm)
Weight	Approx. 4.85 lb (2.2 kg)
Capacity	350 lb (150 kg)
Resolution	0.1 lb (50 g)
Sensor	Load cells (4)
Display	LCD, character height; 1" height (25 mm)
Power	4 type AA batteries (batteries included)
Battery Life	Approx. 2,000 measurements
Auto Power Off	5 seconds
Operating Temperature	50~95° F (10~35° C)
