

SW™ Series Vehicle Scale Systems

RFX™ Wireless Vehicle Scale Systems Offer Unbeatable Accuracy & Operation Safety

Intercomp's SW™ Series Vehicle Scales Offer Diversity for the Most Demanding Operations.

With system capacities of 6,000lb (2,800kg), 8,800lb (4,000kg) and 20,000lb (10,000kg), the SW™ Series Vehicle Scale Systems are designed for weighing anything from tractors to mobile homes. They are ideal to ensure weight limits are met to avoid overload fines, ensure accurate information for consumers and reduce stress on equipment.

Featuring Fully Integrated RFX™ Wireless Weighing Technology with encryption to ensure secure wireless communication, this scale series is portable, light-weight and accurate to $\pm 0.1\%$ of reading. Intercomp scale pads are manufactured from 6061 T6 billet aerospace-grade aluminum on high precision CNC Machines to ensure superior strength.

The SW™ Deluxe comes equipped with Intercomp's PT20™ CPU which is self-enclosed with a thermal printer in a rugged, all-weather case for use in even the most remote locations and the SW™ Series includes Intercomp's Handheld Wireless Weighing Indicator which offers a light-weight handheld alternative with much of the same functionality as the PT20™ CPU.

SW™ Series

Systems Include:

- RFX™ Wireless Scale Pads
- RFX™ Wireless Weighing, Indicator with Rechargeable Batteries, Battery Charger & Case
- AA Alkaline Batteries for Scale Pads

SW™ Deluxe

Systems Include:

- RFX™ Wireless Scale Pads
- RFX™ Wireless PT20™ CPU with Waterproof Case, Printer, Power Supply & AA Alkaline Batteries for Scale Pads

Options:

- Additional Scale Pads
- System Case
- Scale Ramp
